It also dismissed the claim that Gaza is currently under a “belligerent occupation” by Israel, stating that at least two of the three conditions required to establish such an occupation—namely, effective control over the territory and the ability to exercise governing authority—have not been met in Gaza’s case. ( March 30, 2025)

- Israeli Prime Minister Benjamin Netanyahu [stated](#) that the combination of military and political pressure is the only way to recover the hostages, stressing that the government has decided to increase military pressure to “crush Hamas’s capabilities and create conditions for the hostages’ release”, adding that Israel is ready to discuss the “final stage” involving the disarmament of Hamas and Israel’s assumption of responsibility for public security in Gaza, and the implementation of “Trump Plan and Voluntary migration Plan”. - The UN Office for the Coordination of Humanitarian Affairs (OCHA) [reported](#) the completion of a complex, week-long recovery operation in the Tel al-Sultan area of Rafah, in the Gaza Strip, during which the bodies of 15 health and rescue workers were recovered: eight from the Palestinian Red Crescent Society (PRCS), six from the Palestinian Civil Defense (PCD), and one from the United Nations. These individuals were killed when ambulance and aid teams, searching for their missing colleagues, came under attack by Israeli forces—an act OCHA described as a blatant violation of international law. - The Organisation of Islamic Cooperation (OIC) strongly [condemned](#) the Israeli authorities’ ratification of a settlement road-building project in occupied Al-Quds (Jerusalem), intended to reinforce the connection between Israeli settlements—in blatant violation of international law and relevant United Nations resolutions. The OIC warned of the grave implications of this move, which forms part of a broader plan to annex the Maale Adumim settlement to occupied Al-Quds and sever the city from its Palestinian surroundings, thereby undermining the two-state solution. The Organisation renewed its call on the international community, particularly the Security Council, to assume its responsibilities by compelling Israel to halt its policies of settlement expansion, annexation, forced displacement, and genocide against the Palestinian people. (March 31, 2025)

- UNRWA Commissioner-General Philippe Lazzarini [condemned](#) Israeli authorities’ issuing of new forced displacement orders in Rafah affecting over 140,000 people, causing widespread panic and despair amid an already ongoing death, destruction, and suffering in Gaza. Lazzarini pointed out that

the people of Gaza are being treated like pinballs, with constant military orders playing with their fate and lives. - The United Nations Office for the Coordination of Humanitarian Affairs (OCHA) [warned](#) that ongoing hostilities in Gaza are causing further civilian casualties and the destruction of vital infrastructure. It stated that continuous Israeli evacuation orders are forcing civilians to move throughout the Strip, shrinking the space available for shelter. The latest orders, OCHA noted, have affected almost the entire Rafah governorate. These orders deprive civilians of essential services necessary for their survival, while the entry of humanitarian aid into Gaza remains suspended. OCHA also reported that all 25 bakeries supported by the World Food Programme have [shut down](#) due to a lack of flour and cooking gas, as border crossings have remained closed for a month. (April 1, 2025)

The Commissioner clarified that the building was previously a health centre, heavily damaged earlier in the war, noting that displaced families stayed at the shelter because they had nowhere else to go. Adding that more than 300 UN buildings have been damaged or destroyed, even though all their coordinates are regularly shared with the warring parties. (April 2, 2025)

- The [Jordanian](#) and [Qatari](#) Ministries of Foreign Affairs [condemn](#) the Israeli aggression on the Gaza Strip and the targeting of an UNRWA clinic in the Jabalia refugee camp in Northern Gaza, resulting in the martyrdom of 19 citizens, including children, and scores of wounded. Alongside [Saudi Arabia](#), the [Arab Parliament](#), and [the Organisation of Islamic Cooperation](#), they also condemned the incursion of Al-Aqsa Mosque by the Israeli Minister of National Security, considering it a violation of the sanctity of Islamic holy sites. (April 2, 2025)
- Norway strongly [condemned](#) the attacks on humanitarian workers in Gaza, with reports that up to fifteen humanitarian workers from the Palestinian Red Crescent, the Palestinian Civil Defence and the UN have been killed and found buried in the sand. (April 2, 2025)

He recalled that, in the summer, France and Saudi Arabia will chair an international conference in support of the two-state solution, the only solution that can guarantee peace, justice and security to both Israelis and Palestinians, according to the Minister. (April 3, 2025)

- James Turpin, an official at the United Nations Office for Human Rights, [expressed](#) concern over the forced displacement in Gaza and Israeli restrictions on humanitarian aid, describing these actions as serious violations of international law. He also warned against the excessive use of force against Palestinians, the ongoing settlement expansion, and the displacement of thousands. Turpin noted that the transfer of powers from the military to the government facilitates the annexation of the West Bank, where around 737,000 settlers reside. He called on Israel to halt settlement activity, evacuate settlements, compensate Palestinians, and end the occupation following rulings by the International Court of Justice. (3 April 2025)

- UN independent human rights experts [urged](#) States to take concrete action to end Israel's impunity, calling for them to join the "Hague Group," established on 31 January 2025 as a flagship platform coordinating efforts to ensure accountability for Israeli breaches of international law and to uphold decisions by the International Court of Justice (ICJ) and the International Criminal Court (ICC). The experts affirmed that most States' continued failure to meet their obligations may render them complicit in internationally wrongful acts, as concluded by the Court. They also welcomed efforts by some States—particularly those preventing the transfer of arms, munitions, and related goods to Israel, as well as the docking of vessels under their territorial jurisdiction. ( April 3, 2025)
- The International Court of Justice [announced](#) that Nicaragua had decided to withdraw its application for permission to intervene in the case brought by South Africa against Israel concerning the Application of the Convention on the Prevention and Punishment of the Crime of Genocide in the Gaza Strip, which it had submitted on 23 January 2024 under Article 62 of the Statute of the Court. ( April 3, 2025)

The Commissioner affirmed that the blockade and siege imposed on Gaza amounted to collective punishment and may also constitute the use of starvation as a method of war. He expressed concern about the inflammatory rhetoric surrounding the seizing, annexing, and division of territory by force, and referred to the continued expansion of settlements and extrajudicial killings in the West Bank. He stressed that the only way forward is a political settlement based on two states living side by side in equal dignity and rights. (April 3, 2025)
- At its Fifty-eighth session, the Human Rights Council adopted two resolutions: one [on](#) "The right of the Palestinian people to self-determination" ([A/HRC/58/L.31](#)), and another [on](#) "Israeli settlements in the Occupied Palestinian Territory, including East Jerusalem, and the occupied Syrian Golan" ([A/HRC/58/L.32](#)). (April 4, 2025)

### **Publications of human rights NGOs**

- The Independent [published](#) a special investigation by international correspondent Bel Trew, revealing serious human rights violations against Palestinian detainees in Israeli prisons. - The Palestinian Red Crescent [expressed](#) its deep shock over the martyrdom of eight of its paramedics in Rafah, while medic As'ad Al-Nsasra remains missing. The International Committee of the Red Cross [expressed](#) profound outrage and stressed the need to respect medical personnel and Relief teams. (March 30, 2025)
- On the Anniversary of Land Day, the International Commission to Support the Palestinian People (ICSPR) [called](#) on the International Community to Stop the Genocidal War in Gaza and Confront Colonial Annexation, Forced Displacement, and Land Confiscation by the Israeli Occupation. The Commission urged the UN Security Council to expedite the enforcement of its resolution to ceasefire and to ensure the unrestricted flow of humanitarian aid. It also called for the achievement of Palestinian national unity. (March 30, 2025)
- The organization Peace Now [stated](#) that the decision to construct a road between [Al-Eizariya and Al-Za'im](#) aims to facilitate the annexation of 3% of the West Bank to Israel by creating separate roads for Israelis and Palestinians. This would effectively close off the heart of the West Bank to

Palestinians and integrate the Ma'ale Adumim area and surrounding settlements into Israel. The organization added that the Israeli government is using funds derived from the revenues of controlling the occupied territories to finance this project, even though these funds are legally designated for the Palestinian population. It emphasized that the true objective is to turn the Ma'ale Adumim area and nearby settlements into part of Israel, isolating Palestinians from the region and reinforcing a policy of segregation and apartheid. (March 30, 2025)

- The Boycott, Divestment, and Sanctions (BDS) movement [called](#) for preventing Israeli Prime Minister Benjamin Netanyahu from traveling to Hungary on April 2, stressing that no state that claims to respect international law should allow him airspace passage, let alone receive him on its territory. The movement affirmed that states signatories to the Rome Statute are legally obligated to enforce arrest warrants issued by the Court, including the surrender of wanted individuals. It also pointed out that the International Criminal Court (ICC) recently clarified that heads of state don't enjoy immunity from ICC arrest warrants. (March 31, 2025)

- In light of Hungary hosting Israeli Prime Minister Benjamin Netanyahu, Amnesty International [affirmed](#) that Netanyahu is accused of committing war crimes and crimes against humanity. The organization described the visit as "a cynical effort to undermine the ICC and its work, and is an insult to the victims of these crimes who are looking to the Court for justice". It called on Hungary, as a state party to the Rome Statute, to arrest and surrender him to the Court. Human Rights Watch [echoed](#) the same position. Amnesty International also [sent](#) an open letter to the President of the Assembly of States Parties to the Rome Statute, urging decisive action regarding the visit and calling for immediate measures to curb any attempts to undermine the Court. (April 1, 2025)

- Doctors Without Borders (Médecins Sans Frontières)(MSF) [warned](#) that the siege imposed by Israeli authorities in Gaza for over a month has led to a severe shortage of essential medicines, putting the Palestinian population at risk of losing access to vital healthcare. The organization noted that no aid trucks or commercial supplies have entered the Strip since the full siege began on March 2, while electricity has been cut off since March 9, causing water desalination plants to shut down. MSF called on Israel to immediately end this "inhumane" siege and uphold its responsibilities as an occupying power. (April 2, 2025)

- The Palestinian Centre for Human Rights [condemned](#) the hosting of Israeli Prime Minister Benjamin Netanyahu in Hungary as a clear assault on the rule of law and international justice mechanisms. As a

member state of the ICC, Hungary is under a legal obligation to execute the arrest warrants. ( April 2, 2025)

- Amnesty International's Secretary General, Agnès Callamard, sharply [criticized](#) Hungary for receiving Israeli Prime Minister Benjamin Netanyahu without arresting him, stating that "Hungary is effectively giving a seal of approval to Israel's genocide—namely, the physical destruction of the Palestinian people, in whole or in part, in Gaza.". Callamard emphasized that "Hungary's purported withdrawal from the ICC is a brazen and futile attempt to evade international justice and to stymie the ICC's work". She added that "this cynical announcement does not change the fact that Hungary still has a fundamental obligation to arrest and surrender Benjamin Netanyahu to the ICC. Any withdrawal would take effect in one year and must not distract from Hungary's international legal obligations." (April 4, 2025)
